**When: December 16, 2008 beginning
at 5:30 PM**

**Where: Room 127 (auditorium) at
the UAA Aviation Technology Division**

2811 Merrill Field Drive
Anchorage, Alaska 99501

**Coffee and cookies
Avionics Demonstration
Capstone Loan Applications**

Alaska has been on the cutting edge of the ADS-B program, starting with the Capstone Phase I in Southeast Alaska. Alaska is part of the national ADS-B program mandated by President Bush. Infrastructure has been installed in Western and Southeast Alaska.

ARE YOU WONDERING:

What's up with the Capstone Safety Equipage Incentive Program?

What equipment are we going to need?

How much does the equipment cost?

How do I participate in the State low interest loan program?

Where is the FAA in the deployment of the ground infrastructure? If I equip today, where can I use it?

DO YOU WANT THE ANSWERS TO THESE QUESTIONS?

Don't miss a special presentation by Alaska industry users and the FAA SBS Alaska Capstone Office. This safety program, tested and proven in Alaska is important! Find out how industry and the FAA are partnering to insure Alaska remains in front of this national roll-out.
