AACAA SEEKS MEMBER PHOTOS! **Part 121, 135, 91 Commercial**

Please forward your high-resolution photos so AACAA can share your flights on the website and in advocacy presentations to:

AACA@alaskaaircarriers.org

Please help AACAA establish our 2020 Priorities by completing the attached survey!

RUNWAY CONDITION ISSUES

AACA is compiling a list of rural airport runways that pose a safety hazard to operators due to runway surface condition issues.

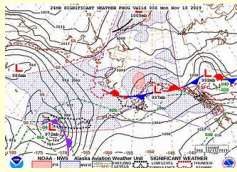

AACA and ADOT recently met to discuss corrective action plans for the following runways:

Tooksok, Takotna, Chevak, Nightmute, Kipnuk, S. Naknek, Ugashik, Chignik, Chignik Lagoon, Chignik Lake, Perryville, King Dove, Wales, Golovan, Klawok, and Kokanok.

What airports are missing from the attached list?

AWOS WEATHER PRIORITIES

ADOT selected the following community airports to receive an AWOS weather station. Please forward nominations for new locations at your earliest convenience! AACA continues to advocate for more weather stations in rural Alaska.

- 1. Akiachak (Z13)**
- 2. Coldfoot (CXF)**
- 3. Kotlik (2A9) - this airport also has a large capital project expended for 2020.**
- 4. Nulato (NUL)**
- 5. Perryville (PEV)**
- 6. Tok (6K8)**
- 7. Tununak (4KA)**
- 8. Crooked Creek (CJX) - this airport also has a large capital**

ADS-B Deviation Authorization PreFlight Tool

The FAA is developing an automated tool, *ADS-B Deviation Authorization Preflight Tool (ADAPT)*. The *ADAPT* tool is expected to be live by January 1, 2020 and available online at: <https://sapt.faa.gov/>.

ADAPT is intended for Part 91.

For more information please email aaca@alaskaaircarriers.org or call 907.277.0071.

FAA Icing SURVEY

Below is a link to a survey monkey questionnaire. FAA desires feedback from the Alaskan commercial air carriers as well as others that interpret icing information for decision making.

There are only a few questions to be answered, and FAA desires YOUR feedback.

Again, thank you for all your help and let AACA know if you have any questions.
