

AGENDA – ADOT Airport Operations Meeting – Scheduled for 8am - 09282016

Air Carrier/Airport Operations meeting most of the discussion centered on the Department's intent to implement after hour charges for services such as ARFF and runway condition reports at airports where we currently provide those services. Attached is an updated after hours document with FAQs. Please review and forward any additional questions asap, in order to make the next meeting as productive as possible. We are still developing an MOA that will be used for after-hours agreements between each airport and air carrier and plan to send out a draft before the meeting.

Next week's meeting: September 28, Central Region Main Conference Room (Lake Hood), 8am-10am OR call 907/266-2455

AGENDA

- Airport operating hours
- Aircraft performance requirements
- Runway self-inspection program
- Airports that are desired for potential after hour services
- After hours pricing
- Time line and plans to public notice

Meeting Information: September 28, Central Region Main Conference Room (Lake Hood), 8am-10am OR call 907/266-2455
