

	A	D	E	F	H	J	K	L	M	N	O	P	Q
248	*RAVN - CDV late flight outside of duty hours - request hours be shifted 1 hour later												
249	*RAVN - HOM may need after hour requests if r/w contaminated												
250	*RAVN- UNK - may need after hour requests if r/w contaminated												
251	*RAVN - VDZ may request operating hours shift later by 30 mins.												
252	*ASA Fit. 50 from SCC to BRW impacts duty hours												
253	*ASA Fit. 157 frequently lands earlier than scheduled 7:47am requiring crew come in earlier than 6:00am												
254	*ASA - SIT flight 70 RON's on Saturday and flight 73 departs 0600 except Sunday												
255	*NSR - no service required (some cargo operators after hour operations do not require airport services)												
256	Operational Limitations												
257	*RAVN - We are unrestricted with an RCAM value of 3 or greater. RCAM values of 1 or 2 limit the amount of cross-wind we can accept. Besides RCAM values, the most restrictive part of a runway is whether or not there are any contaminants												
258	with any depth on the runway surface. Contaminants with depth is far more restrictive to us than RCAM (for runways shorter than 4,100 ft).												
259	*NAC - Looking at RCAM at this time I don't see how we could dispatch a flight with anything below 3.												
260													
261	Airport*												
262	*GAL - after hour requests require specific rules be followed												
263	*SIT - since no ASA jet arriving Saturday late, station issues "conditions unmonitored notam" and goes home after flight 67												
264	*OME - staff works different shift on Thursday's to accommodate ASA freighter (Oct.-May)												
265	*UNK - adjusted duty hours 30 min. (1600 to 1630) to accommodate later flights												
266	Attended DOT Airports												
267	*Unattended Airports - DOT M&O Highway Crews are responsible for both the highways and airport. If air carrier requests service on weekends or after duty hours there may be overtime fees. After hour service is available if staff and resources are available.
